## HOW TO CITE RULES AND RSMO

### RULES

The rules are codified in the *Code of State Regulations* in this system–

Title		Division	Chapter	Rule
3	CSR	10-	4	.115
Department	<i>Code of State Regulations</i>	Agency Division	General area regulated	Specific area regulated

and should be cited in this manner: 3 CSR 10-4.115.

Each department of state government is assigned a title. Each agency or division in the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraphs 1., subparagraphs A., parts (I), subparts (a), items I. and subitems a.

The rule is properly cited by using the full citation, for example, 3 CSR 10-4.115 NOT Rule 10-4.115.

Citations of RSMo are to the *Missouri Revised Statutes* as of the date indicated.

**R**ules appearing under this heading are filed under the authority granted by section 536.025, RSMo 2016. An emergency rule may be adopted by an agency if the agency finds that an immediate danger to the public health, safety, or welfare, or a compelling governmental interest requires emergency action; follows procedures best calculated to assure fairness to all interested persons and parties under the circumstances; follows procedures which comply with the protections extended by the *Missouri* and the *United States Constitutions*; limits the scope of such rule to the circumstances creating an emergency and requiring emergency procedure, and at the time of or prior to the adoption of such rule files with the secretary of state the text of the rule together with the specific facts, reasons, and findings which support its conclusion that there is an immediate danger to the public health, safety, or welfare which can be met only through the adoption of such rule and its reasons for concluding that the procedure employed is fair to all interested persons and parties under the circumstances.

**R**ules filed as emergency rules may be effective not less than ten (10) days after filing or at such later date as may be specified in the rule and may be terminated at any time by the state agency by filing an order with the secretary of state fixing the date of such termination, which order shall be published by the secretary of state in the *Missouri Register* as soon as practicable.

**A**ll emergency rules must state the period during which they are in effect, and in no case can they be in effect more than one hundred eighty (180) calendar days or thirty (30) legislative days, whichever period is longer. Emergency rules are not renewable, although an agency may at any time adopt an identical rule under the normal rulemaking procedures.

**Title 13—DEPARTMENT OF SOCIAL SERVICES**  
**Division 10—Division of Finance and Administrative Services**  
**Chapter 4—Abortions**

**EMERGENCY AMENDMENT**

**13 CSR 10-4.010 Prohibition Against Expenditure of Appropriated Funds for Abortion Facilities.** The department is amending subsection (1)(B).

*PURPOSE:* This amendment supplements the requirements of *HB 11*, passed by the 100th General Assembly, effective for State Fiscal Year 2020 concerning funding or appropriated funds from the General Assembly.

*EMERGENCY STATEMENT:* House Bill 11, 100th General Assembly, First Regular Session (“*HB 11*”), contains the Department of Social Services’ (department) authority to spend funds for state fiscal year 2020 and changes the authority required for this rule. State fiscal year 2020 begins and *HB 11* takes effect July 1, 2019. Section 11.930 of *HB 11* now prohibits the department from expending any funds to abortion facilities or affiliates or associates thereof. The authority for the rule must be updated to protect its validity. The department finds that this emergency rule updating the authority for the rule and protecting its validity is necessary to preserve a compelling governmental interest of prohibiting the expenditure of appropriated funds for programs that perform abortions or that counsel women to have an

abortion, or for abortion facilities as mandated by *HB 11*. As expressed in the laws of the state of Missouri, the state has a compelling governmental interest to ensure that government funds are not expended in support of programs counseling women to have abortions, or to pay for abortions, unless an exception otherwise exists under federal law. The promulgation and implementation of this emergency rule is necessary to comply with the provisions of Art IV, Section 28 of the *Missouri Constitution*. An early effective date is required because this emergency amendment provides for the implementation of procedures to prohibit state fiscal year 2020 expenditure of appropriated funds for abortion facilities. The department also finds an immediate danger to public health, safety, and/or welfare and a compelling governmental interest, which requires this emergency action. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri* and *United States Constitutions*. The department believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 20, 2019, becomes effective July 1, 2019, and expires December 26, 2019.

(1) Definitions.

(B) “Abortion facility” [shall be defined pursuant to section 188.015(2), RSMo] means any clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital, or any affiliate or associate of any such clinic, physician’s office, or place or facility in which abortions are performed or induced other than a hospital.

*AUTHORITY:* section[s] 11.715 and 11.800, *HB 2011*, First Regular Session, Ninety-ninth General Assembly, 2018/11.930, *HB 11*, First Regular Session, One hundredth General Assembly, 2019, and sections 208.153, 208.201, and 660.017, RSMo 2016. Emergency rule filed July 5, 2018, effective July 15, 2018, expired Feb. 28, 2019. Original rule filed July 5, 2018, effective Feb. 28, 2019. Emergency amendment filed June 20, 2019, effective July 1, 2019, expires Dec. 26, 2019. A proposed amendment covering this same material will be published in an upcoming issue of the *Missouri Register*.

**Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES**  
**Division 10—Office of the Director**  
**Chapter 15—Abortions**

**EMERGENCY AMENDMENT**

**19 CSR 10-15.060 Prohibition on Expenditure of Funds.** The department is updating the rule purpose, amending sections (1), (2), and (4), and removing the form which follows the rule in the *Code of State Regulations*.

*PURPOSE:* The department is updating House Bill 2010 references and specific language in the rule purpose and sections (1), (2), and (4) to align with *HB10*, which is the Fiscal Year 2020 budget bill.

*PURPOSE:* This rule defines terms used in [House Bill 2010, 99th General Assembly, Second Regular Session] *House Bill 10*, 100th General Assembly, First Regular Session, for purposes of expenditures by the Department of Health and Senior Services.

*PUBLISHER’S NOTE:* The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule

shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.

**EMERGENCY STATEMENT:** House Bill 10, 100th General Assembly, First Regular Session (HB10), contains the authority of the Department of Health and Senior Services (department) to spend funds for state fiscal year 2020. State fiscal year 2020 begins and HB10 takes effect July 1, 2019. Section 10.1100 of HB10 prohibits the department from expending any funds to “any clinic, physician’s office, or any other place or facility in which abortions are performed or induced other than a hospital, or any affiliate or associate of any such clinic, physician’s office, or place or facility in which abortions are performed or induced other than a hospital.” Section 10.1005 of HB10 prohibits the department from expending funds on any “program” that performs abortions or “counsels women to have an abortion other than the exceptions required by federal law.” HB10 does not define these terms and phrases, and they must be defined in order for the department to timely and effectively implement HB10. Additionally, the terms and phrases must be updated to give notice to entities that receive funds from the department for providing services. Some entities that received funds in state fiscal year 2018 may remain ineligible to receive funds in state fiscal year 2020. The definitions must be updated as soon as possible after July 1, 2019, to ensure that those parties do not provide services for which they are not eligible to receive payment from the department. The definitions must also be in effect to ensure that the department does not expend funds in violation of HB10 and Article IV, Section 28 of the *Missouri Constitution*. The regular rulemaking process takes several months, and state fiscal year 2020 would be more than half over by the time regular rules would take effect. In the interim, for several months, the department’s ability to expend funds for a variety of health services could be impaired. Impairment of the ability to expend funds for health services could compromise the department’s ability to protect the public health and welfare. Further, if the department does not update the terms and phrases by emergency rule, the department may be subject to legal challenges and attorney fees for having inaccurate rule references. Moreover, such a rule may be unenforceable. Thus, if the department does not formally promulgate an emergency rule, it may not be able to timely and effectively implement HB10. Finally, as expressed in the laws of the State of Missouri, the State has a compelling governmental interest in protecting the sanctity of human life. Ensuring that no state funds are expended in support of abortion, as expressed in HB10, furthers that compelling governmental interest. The department finds an immediate danger to the public health, safety, and/or welfare and a compelling governmental interest, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the *Missouri Register*. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the *Missouri and United States Constitutions*. The department believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 21, 2019, becomes effective July 1, 2019, and expires February 27, 2020.

**Title 19—DEPARTMENT OF HEALTH AND  
SENIOR SERVICES**

**Division 20—Division of Community and Public Health  
Chapter 20—Communicable Diseases**

**EMERGENCY AMENDMENT**

**19 CSR 20-20.020 Reporting** [*Communicable, Environmental, and Occupational*] *Infectious, Contagious, Communicable, or Dangerous Diseases*. The department is amending the rule title, rule purpose, and sections (2) and (3).

**PURPOSE:** *This amendment moves Legionellosis from the list of diseases or finding that must be reported within three (3) days to the list of diseases or findings that must be reported within one (1) day. This amendment also changes the rule title and rule purpose to match the language of section 192.020, RSMo, which is the source of statutory authority for this rule.*

**PURPOSE:** *This rule designates the diseases[, disabilities, conditions, and findings that] which are infectious, contagious, communicable, or dangerous and must be reported to the local health authority or the Department of Health and Senior Services. It also establishes when they must be reported.*

**EMERGENCY STATEMENT:** *The Department of Health and Senior Services ("DHSS") determined that this emergency amendment is necessary to protect the public health, safety, and welfare of Missouri residents and visitors.*

*This emergency amendment is necessary to ensure that Legionellosis is reported to the local health authority or DHSS within one (1) day of detection. The Center for Disease Control and Prevention (CDC) has reported an increase of Legionellosis cases by five hundred percent (500%) from 2000 to 2017. Although some healthy people exposed to Legionellosis may not get sick, there are individuals who are at a greater risk of contracting the illness, such as those who are more than fifty (50) years old, former or current smokers, and individuals with chronic lung diseases, cancer or other underlying illnesses. The mortality rate of Legionnaires' disease, which is caused by exposure to Legionellosis, ranges from ten to twenty-five percent (10-25%) as stated by the CDC. Due to the staggering increase in number of cases and the inherent danger of Legionellosis, it is imperative for the local health authority or DHSS to be notified within one (1) day of detection in order to take appropriate measures.*

*DHSS needs this emergency amendment to ensure that the presence of Legionellosis is reported to the local health authority or department within one (1) day of detection. This emergency amendment designates the diseases which are infectious, contagious, communicable, or dangerous and must be reported to the local health authority or the Department of Health and Senior Services. It also establishes when they must be reported.*

*DHSS finds that there is an immediate danger to the public health, safety, or welfare, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. DHSS believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 28, 2019, becomes effective July 8, 2019, and expires February 27, 2020.*

## Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES

### Division 20—Division of Community and Public Health Chapter 20—Communicable Diseases

#### EMERGENCY AMENDMENT

**19 CSR 20-20.040** [Measure for the Control of Communicable, Environmental and Occupational Diseases] *Measures to Determine the Prevalence and Prevent the Spread of Diseases which are Infectious, Contagious, Communicable, or Dangerous in their Nature.* The department is amending the title and sections (1) and (2) and adding new sections (6) and (7).

*PURPOSE: This amendment changes the title and disease categories to be in accordance with the disease categories listed in section 192.020, RSMo and 19 CSR 20-20.020. This amendment also sets forth additional methods to determine the prevalence and to prevent the spread of diseases which are infectious, contagious, communicable, or dangerous in their nature within Missouri, including notification of the public and potentially exposed individuals and the issuance of orders.*

*EMERGENCY STATEMENT: The department has updated this rule in order to better determine the prevalence and to prevent the spread*

of diseases which are infectious, contagious, communicable, or dangerous in their nature within Missouri, including through notification of the public and potentially exposed individuals and the issuance of orders. The department has also changed the title and disease categories to be in accordance with the disease categories listed in section 192.020, RSMo and listed and updated in 19 CSR 20-20.020. This emergency amendment is necessary to protect a compelling governmental interest and to protect the public health, safety, and/or welfare by setting forth additional methods to determine the prevalence and to prevent the spread of diseases which are infectious, contagious, communicable, and dangerous in their nature within Missouri and by changing the title and disease categories to be in accordance with the disease categories listed in section 192.020, RSMo and listed and updated in 19 CSR 20-20.020. The department must act in a purposeful and comprehensive manner to determine the prevalence and to prevent the spread of diseases in order to protect the public health, safety, and/or welfare of Missouri citizens. Communicable diseases that are infectious in their nature are emerging at a rate that has not been seen before. Since 1970, about forty (40) infectious diseases have been discovered, including Severe Acute Respiratory Syndrome (SARS), Middle East Respiratory Syndrome (MERS), Ebola, chikungunya, avian flu, swine flu, and most recently Zika. These infectious diseases continue to emerge, re-emerge, and spread rapidly which result in global epidemics. Many factors are causing an increase in the emergence and re-emergence of infectious diseases. These factors include people traveling more frequently and to greater distances, people living in more densely populated areas, people coming into closer contact with wild animals, antimicrobial resistance, and deliberate introduction of these diseases as a result of bioterrorism. Other communicable diseases such as measles and legionella have also increased. The Centers for Disease Control and Prevention reports that from January 1, to May 24, 2019, 940 individual cases of measles have been confirmed in 26 states including Missouri. This is the greatest number of cases reported in the United States since 1994 and since measles was declared eliminated in 2000. This increase in measles is due to travelers with measles bringing the disease into the United States, the fact that measles is still common in many parts of the world and because many people who get measles are unvaccinated. Finally, the communicable disease legionellosis, including Legionnaire's disease and Pontiac Fever, has been on the rise since 2000. The rate of reported cases has grown by nearly 5.5 times from 2000 to 2017 with health departments reporting 7500 cases of legionellosis in 2017. Legionellosis is particularly concerning as the mortality rate of this disease is estimated to be between five percent (5%) to thirty percent (30%). As a result, the department finds an immediate danger to the public health, safety, and/or welfare and a compelling governmental interest, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the **Missouri Register**. The scope of this emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the **Missouri and United States Constitutions**. The department believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 28, 2019, becomes effective July 8, 2019, and expires February 27, 2020.

(1) [In controlling the diseases and findings listed in 19 CSR 20-20.020, the director shall comply with the methods of control section of one (1) of the two (2) books listed in 19 CSR 20-20.030(2)(B) or the recommendations of the Immunization Practices Advisory Committee (ACIP) published by the Centers for Disease Control in the *Morbidity and Mortality Weekly Report* listed in 19 CSR 20-20.030(2)(B).] The director shall use the legal means necessary to control, investigate, or both, any disease or condition listed in 19 CSR 20-20.020 which is a threat to the public health.

(2) It shall be the duty of the local health authority, the director of the Department of Health, or the director's designated representative on receiving a report of a [communicable, environmental or occupational disease] **disease which is infectious, contagious, communicable, or dangerous in its nature as included in 19 CSR 20-20.020** to—

(A) Inspect any premises that they have reasonable grounds to believe are in a condition conducive to the spread of [any communicable] the disease;

(C) Collect for laboratory analysis any samples or specimens that may be necessary to confirm the diagnosis or presence of the disease or biological, chemical, or physical agents and to determine the source of the infection, epidemic, or exposure. Health program representatives and other personnel employed by the Department of Health, after training and certification to perform venipuncture, and after specific authorization from a physician, are authorized to perform venipuncture utilizing procedures within the scope of the training they have been given. The content and scope of this training shall be established by the Department of Health. Training shall be provided by a physician or his/her designee and the certificate shall be signed by the physician. Nothing in this rule shall limit the authority of local public health departments to establish their own training policies, with or without certification, or to limit their voluntary participation in the certification program developed by the Department of Health, nor shall it apply to venipuncture for other purposes;

(G) Establish appropriate control measures which may include isolation, quarantine, disinfection, immunization, closure of establishment, **notification to potentially exposed individuals to make them aware of the risk or potential risk of the disease and such information required to avoid or appropriately respond to the exposure, notification to the public of the risk or potential risk of the disease and such information required to avoid or appropriately respond to the exposure, the creation and enforcement of adequate orders to prevent the spread of the disease** and other measures considered [appropriate by medical experts for the protection of public health] by the department and/or local health authority as appropriate disease control measures based upon the disease, the patient's circumstances, the type of facility available, and any other available information related to the patient and the disease or infection;

(H) Establish, as the local health authority, whenever a case of unrecognized illness is reported or otherwise brought to the attention of the local health authority or the Department of Health and investigation presents symptoms of a communicable disease, but sufficient time has not elapsed to render a positive diagnosis, after consultation with the director or his/her designated representative, the control measures applicable in actual cases of the suspected communicable disease, until a positive diagnosis can be established. If a disease proves to be noncommunicable, the temporary control measures shall be terminated at once;

(J) Investigate, as the local health authority, the disease within the local jurisdiction with assistance from the director of the Department of Health or his/her designated representative when any outbreak or unusual occurrence of a reportable disease is identified through reports required by 19 CSR 20-20.020. If, in the judgment of the director, the disease outbreak or unusual occurrence constitutes a medical emergency, the director may assume direct responsibility for the investigation.

(3) It shall be the duty of the local health authority, upon identification of a case of a reportable disease or upon receipt of a report of that disease, to take actions and measures as may be necessary according to any policies which have been or may be established by the director of the Department of Health, within the provisions of section (2) and subsections (2)(A)–(J) of this rule.

(C) Control measures implemented by the local health authority shall be at least as stringent as those established by the director of the Department of Health and shall be subject to review and alteration by

the director. If the local health authority fails to carry out appropriate control measures, the director or his/her designated representative shall take steps necessary to protect the public health.

(5) Every practitioner of the healing arts and every person in charge of any medical care facility shall permit the director of the Department of Health or the director's designated representative to examine and review any medical records which are in the practitioner's or person's possession or to which the practitioner or person has access, upon request of the director or the director's designated representative in the course of investigation of reportable diseases in 19 CSR 20-20.020.

(6) In order to determine the prevalence of infectious diseases, contagious diseases, communicable diseases, or diseases dangerous in their nature within Missouri, the department may inspect, investigate, make findings, and make and enforce adequate orders to prevent the spread of such diseases included in 19 CSR 20-20.020.

(7) In order to prevent the spread of infectious diseases, contagious diseases, communicable diseases, or diseases that are dangerous in their nature within Missouri, it shall be the duty of the local health authority, the director of the department or the director's designated representative to do the following:

(A) Notify or ensure adequate notice is given to potentially exposed individuals when such official determines that a case or outbreak of any such disease subjects such individuals to serious illness or death, if acquired; and

(B) Notify or ensure adequate notice is given to the public when such official determines that a case or outbreak of any such disease subjects the public to serious illness or death, if acquired, and the identity of potentially exposed individuals is not known at such time or cannot be known.

Such notice shall provide necessary information for the recipient to avoid or appropriately respond to the exposure.

## **Title 19—DEPARTMENT OF HEALTH AND SENIOR SERVICES**

### **Division 30—Division of Regulation and Licensure Chapter 30—Ambulatory Surgical Centers and Abortion Facilities**

#### **EMERGENCY AMENDMENT**

**19 CSR 30-30.060 Standards for the Operation of Abortion Facilities.** The department is amending section (2).

*PURPOSE: This regulation establishes standards for the operation of abortion facilities to ensure safe, quality care in accordance with legal requirements.*

*EMERGENCY STATEMENT: This emergency amendment allows—under limited circumstances with detailed medical documentation—the physician who is to perform or induce an abortion to delay performing the pelvic examination until the day of the abortion. Without this emergency amendment, this rule and section 188.027, RSMo on informed consent require for every abortion that the physician who is*

*to perform or induce the abortion must conduct the pelvic examination at least seventy-two (72) hours before the abortion. Pelvic examinations are necessary before abortions and can provide information that is necessary for informed consent—including information that informs the proposed abortion method and uterine size and position, which can impact the risks to the woman in light of her medical condition. However, circumstances may exist where the physician who is to perform or induce the abortion determines based on a thorough review of the patient and sound medical judgment that—based on a particular patient's unique condition—a pelvic examination is not medically indicated. Therefore, this rule should be amended so that pelvic examinations are not required at least seventy-two (72) hours before an abortion for every patient regardless of that particular patient's unique circumstances, so long as the requirements in this rule are met and a pelvic examination is still performed before every abortion. This rule is necessary to preserve a compelling governmental interest that requires an early effective date because the regular rulemaking process takes several months, and during that time this rule (if not amended) would, in conjunction with section 188.027, RSMo, require a pelvic examination at least seventy-two (72) hours before an abortion even in those cases where a physician who is to perform or induce the abortion had determined based on a thorough review and sound medical judgment that—based on a particular patient's unique condition—a pelvic examination was not medically indicated. As a result, the department finds a compelling governmental interest, which requires this emergency action. A proposed amendment, which covers the same material, is published in this issue of the Missouri Register. This emergency amendment is limited to the circumstances creating the emergency and complies with the protections extended in the Missouri and United States Constitutions. The department believes this emergency amendment is fair to all interested persons and parties under the circumstances. This emergency amendment was filed June 21, 2019, becomes effective July 1, 2019, and expires February 27, 2020.*

(2) Direct patient care services.

(D) A written medical history shall be obtained for each patient. **At least seventy-two (72) hours before the abortion, [A/a] health assessment [including] and a pelvic examination shall be performed by the physician who is to perform or induce the abortion, unless in the clinical judgment of that physician such pelvic examination is not medically indicated at such time for that individual patient, in which case such pelvic examination shall be completed on the day of the abortion by the physician performing or inducing the abortion. The basis for the determination to delay the pelvic examination shall be documented in detail in the patient's medical record.** Pregnancy shall be confirmed by clinical evidence and laboratory tests. This information shall be used in determining the duration of gestation, identifying preexisting medical or other complications, and detecting any factors which could influence the choice of the procedure, anesthesia, or preoperative and postoperative management. If the physician determines gestation is beyond the first trimester, an ultrasound examination shall be performed and results shall be recorded in the patient's medical record.

**II. SUMMARY OF FISCAL IMPACT**

Affected Agency or Political Subdivision	Estimated Cost of Compliance in the Aggregate
Individuals utilizing the new permit.	Annual aggregate is estimated at between \$0 and \$1,500 with the initial season estimated between \$0 and \$250; however, as the program grows permit quota will be variable from year to year.

**III. WORKSHEET**

For the 2020 season, we estimate 5 resident antlered elk permits will be issued at a cost of \$50 per permit to individuals = \$250. The Department does not anticipate increasing the number of permits available for the foreseeable future; however, the number of permits issued will be determined annually based on the size of Missouri's elk herd, population growth rate, bull:cow ratio, and calf recruitment. Theoretically, however, in the future an estimated 30 resident antlered elk permits could be issued at a cost of \$50 per permit to individuals = \$1,500; however, the number of permits issued will be determined annually based on the size of Missouri's elk herd, population growth rate, bull:cow ratio, and calf recruitment.

**IV. ASSUMPTIONS**

Assuming the size and composition of Missouri's elk herd remains stable, the Department anticipates limiting permit availability to 5 per year; however, that number may go up or down based on herd size, population growth rate, bull:cow ratio, and calf recruitment. Theoretically, however, in the future an estimated 30 resident antlered elk permits could be issued; however, the number of permits issued will be determined annually based on the size of Missouri's elk herd, population growth rate, bull:cow ratio, and calf recruitment.

**3 CSR 10-7.700 Elk Hunting Seasons: General Provisions**

*PURPOSE: This rule establishes the general provisions for hunting elk.*

*PUBLISHER'S NOTE: The secretary of state has determined that the publication of the entire text of the material which is incorporated by reference as a portion of this rule would be unduly cumbersome or expensive. This material as incorporated by reference in this rule shall be maintained by the agency at its headquarters and shall be made available to the public for inspection and copying at no more than the actual cost of reproduction. This note applies only to the reference material. The entire text of the rule is printed here.*

(1) The current *Fall Deer & Turkey Hunting Regulations and Information* booklet is hereby incorporated in this Code by reference. This booklet is published annually in August by, and a printed copy

can be obtained from, the Missouri Department of Conservation, PO Box 180, Jefferson City, MO 65102-0180 and is also available online at [www.missouriconservation.org](http://www.missouriconservation.org). This rule does not incorporate any subsequent amendments or additions.

(2) Elk may be pursued, taken, killed, possessed, or transported only as permitted in this Code.

(3) Persons hunting or pursuing elk must possess a prescribed elk hunting permit. Missouri residents, as defined in 3 CSR 10-5.220, may apply for a Resident Antlered Elk Hunting Permit. Approved resident landowners, as defined in 3 CSR 10-7.710, may apply for a Resident Landowner Antlered Elk Hunting Permit.

(A) Quotas for elk hunting permits are established annually by the Conservation Commission.

(B) Permit Draw.

1. Application fee for Resident Antlered Elk Hunting Permit: ten dollars (\$10).

2. Only one (1) application is allowed per year, except that qualifying resident landowners (see 3 CSR 10-7.710) may apply for one (1) Resident Antlered Elk Hunting Permit and one (1) Resident Landowner Antlered Elk Hunting Permit annually. Resident landowners can only possess one (1) elk hunting permit annually.

3. Only one (1) person is allowed per application.

4. Persons drawn for a Resident Antlered Elk Hunting Permit will not be eligible to apply for that permit again for ten (10) years.

(4) Elk may be pursued or taken only from one-half (1/2) hour before sunrise until one-half (1/2) hour after sunset.

(5) Elk Hunting Methods.

(A) Archery: longbows, recurve bows, compound bows, crossbows, and atlatl.

(B) Muzzleloader: muzzleloading or cap and-ball firearms, .40 caliber or larger, not capable of being loaded from the breech.

(C) Any legal method: archery and muzzleloader methods; atlatl; shotguns; handguns or rifles firing expanding-type centerfire ammunition; and air-powered guns, .40 caliber or larger, charged only from an external high compression power source (external hand pump, air tank, or air compressor).

(D) Prohibited, in use or possession:

1. Methods restricted by local ordinance;

2. Self-loading firearms with capacity of more than eleven (11) cartridges in magazine and chamber combined with the exception of concealable firearms, as defined in Chapter 571, RSMo. Firearms possessed under this exception may not be used to take wildlife while elk hunting;

3. Ammunition propelling more than one (1) projectile at a single discharge, such as buckshot;

4. Full hard metal case projectiles;

5. Fully automatic firearms; and

6. Electronic calls or electronically activated calls.

(6) Elk may not be hunted, pursued, taken, or killed—

(A) While in a stream or other body of water;

(B) From a boat with a motor attached;

(C) With the aid of a motor-driven land conveyance or aircraft;

(D) With the aid of dogs, in use or possession;

(E) With the aid of artificial light or night vision equipment;

(F) Within any area enclosed by a fence greater than seven feet (7') in height that could contain or restrict the free range of elk. Exceptions are provided in other rules or by written authorization of the director; and

(G) With the aid of bait (grain or other feed placed or scattered so as to constitute an attraction or enticement to elk). Scents and minerals, including salt, are not regarded as bait; however, mineral blocks with food additives are prohibited. An area is considered baited for ten (10) days following complete removal of bait. A person

shall be in violation of this provision if they take or attempt to take elk by the aid of bait, where the person knows or reasonably should know the area is or has been baited. It is illegal to place bait in a way that causes others to be in violation of the baiting rule.

(7) During the firearm portion of the elk hunting season, all persons hunting elk and their companions, must wear a cap or hat and a shirt, vest, or coat of the color commonly known as hunter orange, which must be plainly visible from all sides. Camouflage orange garments do not meet this requirement.

(8) Hunters who kill or injure an elk must make a reasonable effort to retrieve and tag it, but this does not authorize trespass.

(9) Hunters who take an elk shall void their permit immediately by notching the month and date of harvest and shall keep the elk separate or distinctly identifiable from elk taken or possessed by another. When the elk is not personally attended and prior to reporting through the Telecheck Harvest Reporting System, the voided permit or proper label shall be attached to the elk. Elk may be possessed and transported only by the taker until reported through the Telecheck Harvest Reporting System. All elk taken shall be accurately reported by the taker or in the taker's immediate presence through the Telecheck Harvest Reporting System by 10:00 p.m. on the day taken. The Telecheck confirmation number shall be recorded immediately on the elk hunting permit. The elk shall remain intact, as a field-dressed carcass, or be quartered with evidence of sex retained until the elk is reported through the Telecheck Harvest Reporting System. All elk shall be reported through the Telecheck Harvest Reporting System prior to processing (except field dressing or quartering as specified in this section) or being removed from the state. After reporting through the Telecheck Harvest Reporting System, elk may be possessed, transported, and stored by anyone when labeled with the permit or any label that includes the full name and address of the taker, date taken, and Telecheck confirmation number.

(10) Elk (or parts thereof) reported in accordance with established procedures, when labeled with the full name and address of the taker, the date taken, and the Telecheck confirmation number of the elk, may be possessed, transported, and stored by anyone. Commercially processed elk meat may be donated to not-for-profit charitable organizations under guidelines established by the director.

[5 (staff members) X 4 (hours per day of the 16 day season) X \$15/hr] = \$4,800

IV. **ASSUMPTIONS**

This is a one-time payment, no additional costs associated with this change are anticipated for the life of the rule. This rule's fiscal cost contributes to one third (1/3) of the overall total cost to modify the licensing platform for initiation of an elk hunting season; the additional two thirds (2/3) is attributed to the Resident Antlered Elk Hunting Permit and the Resident Landowner Antlered Elk Hunting Permit.

The Department of Conservation anticipates costs associated with administration of this new hunting program; however, those costs are unknown at this time. An estimate, based on staff time required to visually inspect each harvested animal is as follows:

5 staff members spending approximately 4 hours per day during the 16 day archery and firearms elk seasons at an average salary of \$15 per hour. The number of staff involved will increase over time as the number of permits issued increases.

**IV. ASSUMPTIONS**

The states of Arkansas, Kentucky, Michigan, Pennsylvania, Tennessee, and Wisconsin had approximately 16,000, 7,000, 46,000, 50,000, 13,000, and 38,500 applicants, respectively, in the inaugural years of their elk hunting seasons. This equates to 5%, 2%, 8%, 7%, 4%, and 6% of the total deer hunters in the respective states of Arkansas, Kentucky, Michigan, Pennsylvania, Tennessee, and Wisconsin. The average percentage across these states would be 5%. In Missouri, there were 485,507 deer hunters in 2018. Therefore, we estimate 24,275 (5% x 485,507) applicants for the elk hunting permits during the inaugural year. The number of applicants, however, will be variable from year to year.

(B) Resident landowners may establish eligibility to apply for a landowner elk hunting permit on a form provided by the department. This application shall include the applicant's name, date of birth, domicile address, phone number, conservation identification number, e-mail, property acreage, landowner type, type of corporate ownership (if applicable), and parcel identification for the qualifying property. All applicants must submit an individual application. A new application to establish eligibility for approval to apply for a landowner elk hunting permit, must be submitted at least once every three (3) years or at any time when there is a change to any information required on the current application. Approval of applications received less than (60) sixty days prior to any elk hunt application period cannot be guaranteed. In addition to the application required by this rule, submission of proof of eligibility to receive landowner permits may also be required by the department at any time. Failure to submit satisfactory proof of eligibility at the request of the department shall be sufficient cause for denial of an application or withdrawal of approval to obtain landowner elk hunting permits. Approved landowner applications as defined in 3 CSR 10-7.434 or 3 CSR 10-7.455 for obtaining no-cost landowner deer or turkey permits may satisfy this requirement.

FISCAL NOTE  
PUBLIC COST

- I. Department Title: Department of Elementary and Secondary Education  
 Division Title: Division of Learning Services -- 20  
 Chapter Title: Office of Quality Schools -- 100

Rule Number and Name	5 CSR 20-100.295 Missouri School Improvement Program-6
Type of Rulemaking	Proposed

## II. SUMMARY OF FISCAL IMPACT

Affected Agency or Political Subdivision	Estimated cost of Compliance in the Aggregate
Public Elementary and Secondary School Districts	No new costs projected
Department of Elementary and Secondary Education	\$380,554 per year for the life of the rule

## III. WORKSHEET

For the purposes of this fiscal note, districts are classified into four (4) categories based upon student population. Public entity costs for public school districts are based on estimates of district staff participation. The number of visits is estimated for the life of the rule, taking into consideration on-site reviews and document preparation.

## IV. ASSUMPTIONS

This rule establishes standards for the Missouri School Improvement Program (MSIP), which is a program that promotes school improvement, provides information to all stakeholders, provides accreditation ratings for Missouri schools, and informs charter school sponsor renewal decisions. MSIP is implemented by the Department of Elementary and Secondary Education (department). It is applicable to public school districts and charter Local Education Agencies. Standards and indicators of MSIP 6 address student performance and district processes. The department generates some data necessary for the program. However, other data is provided by third party vendors on a contractual basis. The MSIP review requires the time and attention of many within a school district. Time and resources required to prepare for and go through the review process will vary greatly across districts.

State agency costs are based upon historical experience, updated with estimates based on current costs. The department projects 9 reviews per year with staffing at current levels. Costs may be reduced if technological efficiencies, bulk purchasing, or other factors can be brought to bear on the process.

SUMMARY OF COMMENTS: A public hearing on this proposed rule was held May 16, 2019, and the public comment period ended May 15, 2019. During the public comment period, one (1) comment was received.

COMMENT: John F. Rehagen, Director, Division of Insurance Company Regulation, Department of Insurance, Financial Institutions and Professional Registration pointed out there was a typographical error in the private fiscal note. In the Section IV, Assumptions, the word “exiting” should be “existing.”

RESPONSE AND EXPLANATION OF CHANGE: Staff agrees that the typographical error should be corrected.

<b>Rule Number and Title:</b>	20 CSR 200-21.400 Filing Procedures
<b>Type of Rulemaking:</b>	New

**II. SUMMARY OF FISCAL IMPACT**

Estimate of the number of entities by class which would likely be affected by the adoption of the rule:	Classification by types of the business entities which would likely be affected:	Estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
<b>29</b>	<b>Insurance companies and insurance groups</b>	<b>Year 1: \$2250. Following years: \$750.</b>

**III. WORKSHEET**

First Year Costs:  $\$250.00 + (\$50 \times 40 \text{ hours})$  equals \$2250.

Costs for subsequent years:  $\$250.00 + (\$50 \times 10 \text{ hours})$  equals \$750.00.

**IV. ASSUMPTIONS**

We assumed costs for the rule would not be overly significant because most insurers already summarize and describe their corporate governance practices to various stakeholders regularly. Additionally the rule allows the use of existing documents and filings. Compliance with the rule's requirements may take some additional time to review and utilize, but that should not be significant. Currently, there are 29 insurance groups in Missouri that would be required to file annually. The filing fee is \$250.00 per insurance group. The initial filing will take less than 40 hours to compile (\$2000 maximum) and approximately 10 hours (\$500) annually thereafter. (These costs are for both this rule and 20 CSR 200-21.500.)
